

**PRESS RELEASE:** 36<sup>th</sup> Annual State Science Fair. Held Saturday April 6, 2024 on the campus of Indiana University, Indianapolis.

**WHAT:** Indiana students from grades 4-12 who have been selected as the best from the State's regional competitions will present their work in Science and Engineering. Three Science Education Foundation Sponsored Scholarships and prized totaling more than \$ 100,000 in value will be awarded.

The highest ranking projects in high school were selected to represent Indiana and compete in the Regeneron International Science Fair to be held in May in Los Angeles, CA. Where they will compete against 1,800 other student projects from over 60 countries for \$8 Million in Scholarships and prizes. Several ISEF students have applied for and received Patents for their work. Universities find these Hoosier scientists and engineers most desirable when awarding scholarships. Come and see why!

This is NOT "your grandparents" Science Fair. There are no: Volcano's spewing fake lava, growing of bean plants under colored lights, soil erosion in a cake pan.

For more details and to "preview" the projects visit our web page <https://sefi.org/hsef> and click the link to see the **List of student exhibitors.**
